

ALL MAILING SOLUTIONS - Streamfeeder lijn

Mailing Series Streamfeeder V-1000m High-Speed Continuous Feeder

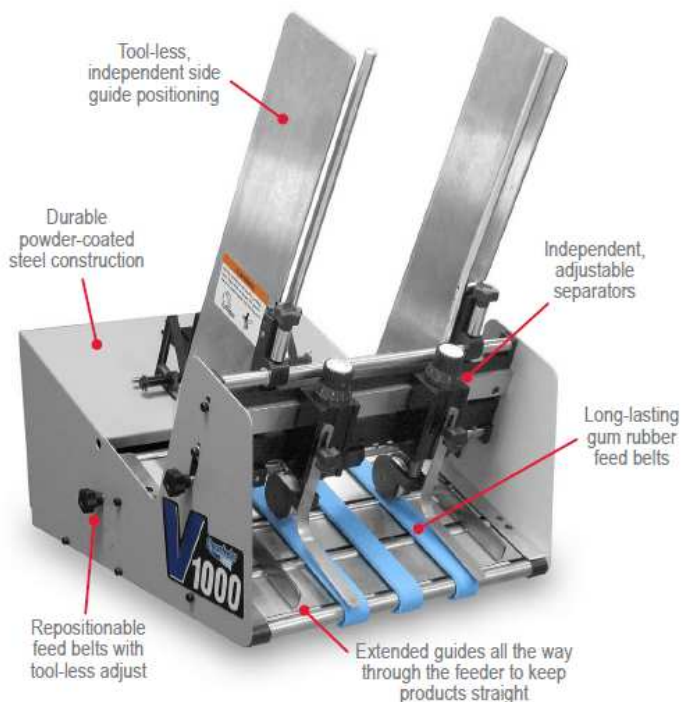

Overview

The most reliable and safest continuous IJ feeder in the market today! With CE approval* and TUV certification of UL-60950-1, you can be assured that you have the safest machine both mechanically and electrically and we back it with a two-year limited warranty. The V-1000 is capable of feeding flat and multi-thickness products into mail production streams consistently at high speeds with exceptional alignment qualities. The importance of straight feeding and minimizing skewing can help improve USPS® MERLIN™ verification results, leading to significant savings for a mailing service company.

Feed a wide variety of flat and multi-thickness products into production mail streams including inkjet addressing systems, tabbers, labelers, and more.

Standard Features

Repositionable feed belts • Independent side guide positioning • Extended guide rails all the way through the feeder • Two independent adjustable product separators • Long lasting natural gum rubber feed belts • Variable speed control • Universal external run interface kit
